DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 and 5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The argument presented in the response of 16 October 2003, that it is not a necessary condition for *Suzuki* to use a roller with a circumference equal to or greater than the length of the back-light plate, is persuasive to the examiner. The previous rejections over *Suzuki* in view of *Umemoto* in view of *Fukui* are therefore withdrawn.

The prior art does not disclose the method recited in claim 1, in particular forming a uniform illumination pattern in a back-light plate, using a press with protruding elements to form a plurality of recesses, wherein the press comprises a roller whose circumference is equal to or greater than the length of the back-light plate. Claim 1 is therefore allowed, as are its dependent claims 2, 3, and 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
